# Residential Services

Throughout Hudson Valley

When CP Unlimited expanded to the Hudson Valley in 2018, we promised Putnam and Dutchess County leaders that our program would be a leading source of inspiration and education. Today, we have fulfilled that pledge to become a trusted community partner across the region.

The Mt. Ebo team are building bridges in the local community with visits from the SPCA and local musicians, trips to the local library, bringing in local authors for readings, and developing a thriving partnership with the local Rotary, Elks, and other groups. On the horizon are plans to engage a local farm animal treatment center, developing a swim program, and creating more volunteer opportunities to help our shared communities.

Residential settings are available in various Hudson Valley counties providing twenty-four hour support for people with intellectual and developmental disabilities.

For our people who need all day care as well as others who require less intensive support, CP Unlimited provides accessible, enriching, safe, and comfortable homes that take the needs of every individual into account.

CP Unlimited also operates CP Transport to facilitate drop off and pick up at our renowned Day Habilitation program and other locations.
